EDUCATION

BCA-BACHELORE OF COMPUTER APPLICATION

JUL, 2022 TO JUN, 2025

RK Univecity

Rajkot

SKILLS

- Web Designing
- Android Development

HOBBY

- Sports
- Writing
- Traveling
- Exploring

ABOUT ME

I am a Flutter Developer with around 1 year of hands-on experience, including internship and full-time work, specializing in building scalable and user-friendly mobile applications. I hold a Bachelor's degree in Computer Applications (BCA) and have a strong foundation in programming, UI development, and API integration.

I have worked on real-world projects involving Firebase integration, dynamic UI design, and application performance optimization. I am passionate about mobile app development and continuously strive to improve my technical skills and stay updated with modern technologies.

I am a quick learner, adaptable, and committed to delivering high-quality solutions while contributing effectively to team goals.

EXPERIENCE

- Flutter Developer Intern Qbits9
- Duration: 9 Months
- Flutter Developer Creatamax Infotech
- Duration: 6 Months

PROJECTS

1. Flutter Project: Resume Maker App

- Developed a fully responsive Resume Builder application using Flutter.
- Implemented dynamic form input to generate professional resumes.
- Integrated PDF generation feature for downloading resumes.
- Added share functionality to export resumes directly via apps (WhatsApp, Email, etc.).
- Focused on clean UI/UX and performance optimization.

2. Flutter Project: Construction App (REST API + Riverpod)

- Developed a scalable construction management app using Flutter.
- Integrated REST APIs for dynamic data handling and backend communication.
- Used Riverpod for efficient state management and clean architecture.
- Implemented role-based features (e.g., site supervisor workflows).
- Designed responsive UI with real-time data updates.
- Improved app performance and maintainability using modular code structure

3. Flutter Project: WhatsApp Status Saver App

- Built a utility app to save and manage WhatsApp status images and videos.
- Implemented local storage access to fetch and display statuses.
- Added media preview and download functionality.
- Designed simple and user-friendly interface for better usability.
- Ensured smooth performance with optimized file handling.
